

Mergers & Acquisitions

In September 2008, SDI Displays merged with the GPX Group to create a comprehensive POP design and manufacturing Group. The SDI Group has a client list that includes Tesco, Cadburys, Marks & Spencer and L’Oreal to name but a few, serviced from four sites that specialise in metal, acrylic and wood along with a dedicated logistics and warehousing operation. The GPX Group merger is a key factor in SDI’s current business plan to become the UK’s premier manufacturer of point of sale and retail displays. *“We are now positioned to deliver a complete manufacturing and logistics solution to the biggest retailers,”* says Group Managing Director, John Cook.
